INDEX 1979 Subject

A

Accuracy in building 3–31
Acoustics, Practical consultancy 10–21
Airports
  Al Ain 4–4
  Queen Alia 4–51
  Nairobi 4–52
  Tripoli 4–53
  Sharjah 5–5
Alsands project 11–4
Anchor butter processing plant 2–25
Anchorages, A designer's guide to prestressing 12-supplement
Anchors: performance prediction 12–8
Anns v Merton 1–27, 2–17
Appropriate technology (FIDIC Manila seminar) 3–23
Aqueduct, Gouwe 12–24
Arbitration (1979 Act) 8–25, 9–35
Australia, Centrepoint tower 7–30
Awards
  Structural steel design 1–8
  ICE 12-57

B

Batteries (standby power) 3–45
Books
  CHP 1978, world energy conference 3–61
  Standard forms of energy economy 3–61
  Partnership taxation 7–69
  Geothermal energy 7–69
  Building contracts 7–69
  Patents Act, 1977 11–69
Bricks
  Rediscovering the lost art 6–62
  Diaphragm walls 6–70
Bridges
  Cromarty 4–41
  Hong Kong 6–9
  Lyne 3–7
  Orwell 11–4
  Slochd Beag 4–46
Bridging 50 years 11–32
British Consultants Bureau
  Overseas funding problems 3–7
British Gas, International Consultancy 2–9
British Standards 1–17, 5–76
Building regulations, The future of 7–17
Building services (see also standby power)
  Balance and control (district heating) 3–38
  Blind faith 3–56
  Integrated systems 5–61
  Standard packages 8–52
  Review 8–58
  The need for unbiased advice 9–57
  An energetic leader 8–37
  District heating 8–45

C

CEBI
  Piet van der Sluis (President) 3–9
  One voice for consultancy 7–3
CEDIC
  Theo de Beaufort (President) 3–9
CEI
  and the unions 7–3
Central heating, Packaged (Specifying engineer) 11–87
Combined heat and power
  CHP on the way? (DHA conference) 5–7
  The Slough Estates scheme 8–39
  Heat loads in London 9–44
China
Consultancy in China 4–4
  Joint consultancy 6–4
  Trade mission 7–6
Coal, Hope from 11–75
Codes, accuracy in building (BS 5606) 3–31
Comment
  Industrial recovery starts here 1–80
  Public and private sectors 2–72
  Summing up the debate 2–72
  Speeches at the ACE dinner 3–88
  President's speech at the IME dinner 4–96
  IEE 'control' conference 5–88
  Project audit 6–96
  FIDIC, responsibility and liability 7–88
  Marshall report on CHP 9–112
  Domestic water metering by 1984? 11–100
Computers
  Simulation in hydrology 5–64
  Steelwork design programs 7–15
  Specifying engineer 1–67, 2–57, 11–87
Concrete
  The form for progress (interview) 5–14
  A critique of precasting 5–23
  Fatigue design of concrete beams 5–33
  A new dam construction method 5–41
  Gunite structural repairs 5–47
  Concrete review 5–53
  Steel/concrete connection 7–25
  LOT complex, 43-storey slipform 8–22
  Living at Lake Tahoe 9–26
  Going to church in Arizona 9–28
  Dam at Revelstoke
Conference diary 1979 2–61
Construction
  When an industrialist needs to build 1–20
  Coutts Bank 3–15
  of canals with explosive 1–7
Contracts
  Building contracts, book review 1–33, 7–69
  Working for the EDF 1–13
  FIDIC's revised conditions 6–11
Contractors All Risks Insurance 7–13
Corrosion, steel protection 7–43, 11–89 (Specifying engineer)
Coutts Bank 3–15, 9–75
Cromarty Bridge 4–41

D

Dams, new construction method 5–41
Derwent scheme 4–72
Design
  For the disabled (West Shore Hotel, Llandudno) 8–12
  For the working blind 8–14
  Can I get in 8–16
  Guide to prestressing, A designer's 12–supplement
  Steel design codes 7–37
  Steel design awards 1–8
Development, McNamara on strategy 11–9
Diaphragm walls, in brick 6–70
Dissolved air flotation 4–58
District heating
  Tredegar Road scheme, London 3–38
  Harrogate conference centre 8–45
  Heat loads in London 9–44
Drainage
  Membranes—where next? 8–65
  Jeddah, When it rains in? 11–20
Dredging (see also Maritime)
  Co-operation, the way forward (8th World Dredging Con-
  Buckets full of promise 10–57
  A walkover 10–64
  Buried alive 10–68
Dynamic consolidation, Underwater 12–17

E

Ecology, Protecting the coastal environment 10–50
Engine consultant 4–13
Energy
  CHP 1978, World Energy Conference (book review) 3–61
  Economy (book review) 3–61
  JET, progress 5–7
  CHP, Slough Estates scheme 8–39
  Nuclear energy after Harrisburg 8–7
  Heat loads in London 9–44
  Marchwood geothermal project 11–6
  Power from the oceans 10–85
  Trace heating 10–91
European Development Fund, contracts 1–13
Explosive
  Canal construction, USSR 1–7
  Welding (Specifying engineer) 11–87

F

Far eastern marketing (FIDIC Manila seminar) 3–21, 4–25, 5–11
Fee competition rules in the US 3–33
FIDIC
  New standard conditions (IGRA 3rd edition) 3–5
  Hein Frijlink, President 3–9
  Manila seminar 3–21, 4–25, 5–11
  E & M conditions 6–11, 11–82
  One voice for consultancy 7–3
  At Copenhagen 8–71
Fire
  Engineering design 7–48
  Product review 9–67
  Coutts Bank 9–75
  Detecting an outbreak 9–79
  Alarm and detection 9–38
Floor-warming elements (Specifying engineer) 11–89
Foundation designs
  Three case studies 1–55
  Of immersed tube tunnels 2–42

G

Geotechnical investigations 1–41
GPO Telconsult 11–5
Ground engineering
  Ground treatment on fill 2–29, 3–67
  Site investigations in Saudi Arabia 6–37
  Soilmex 79 preview 9–2
  Remote sensing for terrain analysis 12–32
  Case studies 12–43
  Gouwe Aqueduct: hybrid engineering 12–24
  Anchors: performance prediction 12–8
  Underwater: dynamic consolidation 12–17
Gunite structural repair 5–47

H

Heating, Safe for handicapped 11–89
Heliport for Shetland 11–8
Hong Kong, bridge 6–9
Hospital sewerage design 4–63
Hydrology, Tides in the Persian Gulf 6–46

Unions
  Chemical engineers 2–15
  One firm—three unions 1–65
  £1M to become vocifeeous (MP & SLG) 2–15
  UKAPE's High Court decision 3–5
  CEI, leading from behind 7–3
  UKAPE to join EESA? 11–5
Uplifting advice 2–20
Urban renewal 1–7

VUBI, presidential interview 7–10

Water, use of computers 5–64
  Review 11–57, 59
  The Derwent scheme 4–72
  Haweswater pumping station 11–40
  More than turning off the tap 11–47
  Scotland's next source 11–51
  Paths to purity 11–53
  Domestic water metering by 1984? (Comment) 11–100
  Detection (Specifying engineer) 11–89
  Gouwe Aqueduct: hybrid engineering 12–24
  Underwater: dynamic consolidation 12–17
Waterproofing concrete immersed tube tunnels 2–45
Wellington Centre 1–24

INDEX 1979
People

A

Austen, D Angus, *International Labour Organisation*
Appropriate technology—men or machines 3–23

B

Baker, M C, *Ewbank & Partners Ltd*
Regulating the Tana River 3–63
Berger, Louis, *Louis Berger International*
Selection and payment (FIDIC Manila seminar) 3–26
Bexon, Colin, *Director MSL Engineering Ltd*
Interview 1–11
Bingham, J G, *G H Buckle & Partners*
Inside the package 8–52
Birtwhistle, G H, *Donald Smith, Seymour & Rooley*
West Shore Hotel, Llandudno —design for the disabled 8–12
Brunton, Gordon, *Chairman, Economic Development Committee for Civil Engineering*
Speeches at the ACE dinner (Comment) 3–88
Burry, Peter E, *Fire Research Station*
Detecting an outbreak of fire 9–79

C

Chandler, K A
Steel—corrosion protection is not all plain painting 7–43
Charter, T, *Steensen, Varming, Mulcahy & Partners*
Case study: a description of the fire engineering at Coutts Bank in the Strand 9–75
Clifford, D, *Preece, Cardew & Rider*
The Slough Estates scheme 8–39
Clough, Ian R, *ICI Fibres*
Drainage membranes, where next? 8–65
Connery, P B, *G H Hill & Sons*
The Derwent scheme 4–72
Cooper, Philip A R, *Harris & Sutherland*
Brickwork, Rediscovering the lost art 6–62
Cooper, R, *Howard Humphreys & Sons*
A model for decisions 9–49
Cottis, G I, *Geotechnical consultant*
Site investigations in Saudi Arabia 6–37

D

de Beaufort, Theo, *President, CEDIC*
Interview 3–9
de Saventhem, Dr Eric M, *H Clarkson (Overseas) Ltd*
ODIC—a new concept in project insurance 6–15
Downs, Diarmuid, *Ricardo, consulting engineers*
The engine consultant (interview) 4–13
Drabbe, J G, *Associated Marine Consultant, Amsterdam*
Co-operation—the way forward (8th World Dredging Conference) 1–17
Dunican, Peter, *Chairman, National Building Agency*
Urban renewal 1–7
Dunstan, M R H, *South West Water Authority*
A new dam construction method (rolled concrete) 5–41

E

Eldridge, Gordon, *Chairman ACE*
Speeches at the ACE dinner (Comment) 3–88
Evans, J G, *Richards & Dumbleton*
Domestic water metering by 1984 (Comment) 11–100
Evans-Roberts, D J, *Hydraulic Research Station*
Tides in the Persian Gulf 6–46

F

Fielden, C J, *Abba Consultants*
Anns v Merton 1–27, 2–17
Building contracts (book review) 1–33
Product liability—the omnipotent giant? 5–17
A consultant's dilemma 6–59
Arbitration to-day 8–25, 9–35
Patent law 10–77, 11–67
What the law can do to protect information 12-49
Fitt, Robert, *Chairman, FIDIC*
Public and private sectors—summing up the debate (Comment) 2–72
Fleming, Dr G, *Strathclyde University*
Computer simulation in hydrology 5–64
Fowler, Don, *Dawson Keith Ltd*
Past, present and future (standby power) 3–49
Frijlink, Hein, *President FIDIC*
Interview 3–9

G

Gibson, J, *National Coal Board*
Hope from coal 11–75
Gifford, Dr F W, *F W Gifford & Associates*
A critique of precasting 5–23
Goldsmith, K
Standard terms of the energy economy (book review) 3–61
Goodman, B J, *Preece, Cardew & Rider*
From broadcasting to automation 6–30
Graham, D W, *Solicitor*
FIDIC's e & m conditions 6–11

H

Hale, P E, *GKN Birwelco Ltd*
Dissolved air flotation 4–58
Halliwell, L, *Cremer & Warner*
Hazards, risks and social responsibilities 6–75
Haseldine, John M, *John Taylor & Sons*
Reliability is all-important (sewage treatment) 4–55

J

Jacomb-Hood, E W, *C H Dobbie & Partners*
Underground option 9–12
James, John, *R W Gregory & Partners*
An energetic leader 8–37
Janssen, W, *OGEM Building Group*
Waterproofing of concrete immersed tunnels (Europort conference) 2–45
Jenkins, N
CHP 1978, World Energy Conference (review) 3–61
Jessop, K, *Stelmo International*
The form for progress (interview) 5–14

K

Kahn, Dr A
Consulting in Bangladesh (FIDIC Manila seminar) 5–12
Kingsbury, P A, *Binnie & Partners*
Haweswater pumping station 11–40

L

Leatherdale, J D, *Hunting Surveys Ltd*
Space imagery in mapping 1–36
Litten, A, *Pick Everard Keay & Gimson*
Paths to purity 11–53
Little, M, *Kenchington, Little & Partners*
When an industrialist needs to build 1–20

M

MacDonald, J M, *Cementation Ground Engineering Ltd*
Gunite structural repair 5–47
Mason, John M, *Walker-Beak-Mason Partnership*
Practical acoustics consultancy 10–21
McAfee, J, *President, IME*
What is an engineer? . . . a degree of uncertainty (Comment) 4–96
McNamara, Robert S, *President World Bank*
McNamara on development strategy 11–9
Millington, Philip E, *Consultant in water management*
More than turning off the tap 11–47
Monkman, D, *British Engine Insurance Ltd*
CAR cover 7–13
Moran, Edward M, *Ford, Higgins & Pole*
Comfort for the multitude 8–45

N

Nervi, Pier Luigi
Obituary 2–5
Norman, Vera
One firm—three unions 1–65
Partnership or unlimited company? 4–81
Amberley Museum of construction 9–94
A mosque for Rome? 11–35

O

Oakes, F, *Cremer & Warner*
Hazards, risks and social responsibilities 6–75
Ocampo, L U *Consulting Engineering Council of the Philippines*
The local and expatriate team (FIDIC Manila seminar) 5–11

P

Pearce, R W, *Cooper, McDonald & Partners*
Ground treatment on fill 2–29, 3–67
Postlethwaite, R W, *Peter Fraenkel & Partners*
The port of Sullom Voe 10–28
Prentice, R, *Minister for Social Security*
Interview 8–19
Preston, J R, *Watson Hawksley*
When it rains in Jeddah? 11–20

R

Rasmussen, Professor Norman C, *Massachusetts Institute of Technology*
Nuclear energy after Harrisburg 8–7
Rees, Colin, *Atkins Research & Development*
Protecting the coastal environment 10–50

S

Sassoon, David, *World Bank*
The client's view of liability (FIDIC Manila seminar) 3–22
Schnieders, Jens, *President VUBI*
Interview 7–10
Seward, M, *Managing Director, Sparrows Contract Services Ltd*
Uplifting advice 2–20
Shaheedullah, S M
Consulting in Bangladesh 5–12
Sharman, F Andrew, *Sir William Halcrow & Partners*
Road planning in a changing society (Rees Jeffreys Lecture) 2–13, 3–29, 4–21

Silber, R Martin, *W H Aubrey & Partners*
Accuracy in building 3–31
The future of building regulations 7–17
Simantel, M E, *International Harvester*
Specifying trucks for life not death 10–15
Simmons, F R, *Tilney, Simmons & Partners*
The need for unbiased advice 9–57
The specifier's problem 3–41
Simpson, C J, *Sedgwick Forbes Construction Services*
Insuring overseas risks 6–6
D H Slater, *Cremer & Warner*
Hazards, risks and social responsibilities 6–75
Smith, K V, *Managing Director, Transmark*
Exporting railway technology (interview) 4–31
Spelt, C, *Department of Public Works, Rotterdam*
Anchors: performance prediction 12–8
Steger, E H, *Pell, Frischmann & Partners*
Three case studies of foundation design 1–55
Stone, M J, *Zanen Verstoep NV*
Geotechnical investigation 1–41

T

Tattersfield, J, *Watermeyer, Legge, Piesold & Uhlmann*
Regulating the Tana River 3–63
Thomson, G H, *Cementation Piling and Foundations Ltd*
Ground treatment on fill 2–29, 3–67
Tongereu, H van, *Ballast Nedam Group*
Foundations of immersed tunnels (Europort conference) 2–42
Tordoff, Derek, *BCSA*
The future for steel design codes 7–37
Townend, Alan D, *Sir Frederick Snow & Partners*
Queen Alia Airport 4–51
Tully, R E, *G H Buckle & Partners*
Inside the package 8–52
Turner, F H
Fatigue design of concrete beams 5–33
A designer's guide to prestressing 12–supplement
Tyler, Lew, *Chloride Alcad Ltd*
The right way to start 3–45

U

Upstone, T J, *RDL International*
Centrepoint tower, Australia's highest 7–30
Upton, J, *Severn-Trent Water Authority*
Dissolved air flotation 4–58

V

van der Sluis, Piet, *President, CEBI*
Interview 3–9

W

Walker, Angus W, *Walker-Beak-Mason Partnership*
Practical acoustics consultancy 10–21
Walter, H, *FIDIC executive committee*
Sector studies (FIDIC Manila seminar) 3–21

Warning!

Give us a ring!

We fight fire. We fight crime

Mather & Platt Alarms systems survey, detect and inform.
Warning against break-ins or fire or gas or smoke or leakage, in fact any danger which threatens your business.
The technology, the research and development of Mather & Platt Alarms are gathered from many years, and thousands of installations, of better alarm systems, worldwide, which means that when an MPA alarm sounds, immediate contact is made with the emergency services.
A simple bell system or an operations centre:
Mather & Platt Alarms will research, design, supply, install and service each with the same specialist care and concern.
Mather & Platt Alarms. Part of the world's most experienced crime and fire detection organisation.
Phone us today for further details.
